

Japan-China Capital Partners Co., Ltd.

December 2024

Regarding the Investment in KOHJIN Film & Chemicals Co., Ltd.

Japan-China Capital Partners No.1 Investment Limited Partnership managed by Japan-China Capital Partners Co., Ltd. ("JCCP", Representative Director: Kenji Sugiyama), has reached an agreement to acquire whole shares of KOHJIN Film & Chemicals Co., Ltd. ("KOHJIN Film") from funds managed or served by Aspirant Group Inc.

Since founded in 1937, KOHJIN Film has been manufacturing and supplying a wide range of films, primarily shrink films and converting films, for applications ranging from food and daily goods packaging to industrial uses. The company has established long-term relationships with major domestic and international clients by consistently delivering high-quality films with unique properties, enabled by its proprietary "tubular simultaneous biaxially oriented film production method".

KOHJIN Film holds a strong position in the Japanese market for food and daily goods packaging. Looking ahead, the company anticipates further growth in overseas markets and industrial applications. We are committed to supporting its business expansion in international markets, particularly in the Asia-Pacific region.

Going forward, JCCP will continue to support companies seeking growth in Asia, particularly in Japan and China, by providing equity financing and other capital solutions, along with diverse solutions and collaboration with corporate partners. Through these efforts, we aim to help address increasingly diverse and complex challenges while fostering business growth.
